new york picture show!
it was a naked summer
i left a vocal chord
buried in glass houses
the pretty pink i know
lets the fashion quiver
will you let me know?
when the weathers better

the baby never knew
the baby gave her something
old and borrowed and blue
buried in glass houses
and what about the plan?
and frequent left desicions
now you sit and stand
new york picture show

New York Picture Show x 4

i hope the weathers better.....
