Mhhh hh mhhh...

You come rolling through the daylight  
You come to take my hand  
Then wake me from a dreaming  
I can feel you

And we, we go Straight against the top  
It so close but still out of sight  
And the closer that we get  
The higher that I fly  
There I wanna be, I'm crying baby

I need you tonight I need you forever  
The deffirent is so clear  
When never you are near  
It so close but still out of sight

I need you baby hold me tight  
You close but still out of sight  
But still you are my light?  
I need you tonight

Like a ship on the ocean  
And the storm breath in a high?  
Is strong but distance and emotion  
Get the? to get close  
And I, I can't sleep at night  
It so close but still out of sight

And the closer that we get  
The higher that I fly  
There I wanna be,  
Don't you see I'm crying

Mhhh hh mhhh...

You come rolling through the daylight  
You come to take my hand  
Then wake me from a dreaming  
I can feel you

And we, we go Straight against the top  
It so close but still out of sight  
And the closer that we get  
The higher that I fly  
There I wanna be, I'm crying baby

I need you tonight I need you forever  
The deffirent is so clear  
When never you are near  
It so close but still out of sight
