Make room  
Cause we about to start swelling  
Catching attitude  
Get buck sweat it up  
And really lose cool  
Its what we been commissioned to do so  
Back on up and give me room  
We gotta keep makin moves  
My long range aim is dedicated to change  
Persist to twist brains with rhymes only god can explain  
Attain divine intervention if your attentions arrested  
Imprissioned and in position to listen to lessons given  
Gotta make moves steadily heavily bruising these  
dudes  
We got the gift but abuse tools misleading these  
youths see  
My birthright is light in the darkness of night  
To lead the lost paying the price of sacrificing my life  
Ive been sittin and contemplating waiting anxiously  
peeking  
Perception of these releases embracing the deeper  
reasons  
Of timing and perfect season believing this thing is  
bigger  
Than faces and soundscan reaching for the completion  
Of purpose in promised land watchin behind the curtain  
For certain the game is hurtin looking for some solution  
Searchin for revolution like music is the conclusion  
Refusing to look at life a livion for forward movement  
Oh god don't let me act up i feel a fit comin on  
My conniption's my conviction's reaction to what's goin  
on  
My rebuttal's far from subtle take you there just like a  
shuttle  
Gather round the huddle embrace the pace i spit at  
give it a kiss and cuddle  
Boy what's that there you sayin'  
I'm tight like the shorts that men look gay in  
Aw lawdy you don' said too much  
My slightest touch is a cobra clutch  
Let it be known we are the epitomy of strange and

bizarre  
Swichin up and change our repertoire come discover  
who we are  
Wreaking havoc on satan's mavericks through a  
labyrinth filled with nooks  
And crannies (an elite group call
