you can't solve it
you can't solve it
you can't solve it

mind blowin'
don't have to sway for second rates
mind blowin'
go 'head and raise yo' family
mind blowin'
don't let them under educate you
mind blowin'
respect for all humanity
.....

[coffee]

ma soul design
speak so elequintly
coffee so defined
i know this time
the piece of pie is in ma reach
i know its mine
so sabline
throwin' up ma souljah sign
before we find the bit and coldest kind
this it
let 'em know what for this time
let 'em know kinda cool with a mountain view
picturesc and a flow so fresh
the best to that i can atest
make the rest seem so new m newest stature
just cause 'til you fall
we gotcha
this why we all got at ya' (what)
chase and bouncin' balls across the walls
we all be after
hopeless in ma view
don't miss constrew ma clause to you (you)
tragic loss to ma disdain
some me up 'til i hit this thing
had to record the flavor if ma west coast conglomerant

who fond of it
nobody does it better when it comes to it

course

[4th ave jones]

lookin' out ma window at ma ghetto street
i gotta (what)
become a man
i gotta (what)
take care, my baby and them got to eat
i gotta (what what)
charge ya'll beggin' ain't nothin for free
i gotta (what)
will to fight and the mind to tell the truth
i gotta (what)
kill this mic everytime i'm in this booth
i gotta (what)
win the game and get a castle for ma queen
i gotta (what)
get some change
i gotta keep ma mama clean
i gotta (what)
a problem with talkin' too much of talkin' what you don't
want
(what what)
you fright and definative no bitin' homie don't blonk
gotta get ma grind on
i'm runnin' out the time zone
(what)
the jones click and grits fent to have yo' mind blown

course

[bonifide]

bromin' with these baller like tendencies and servin'
these pain killers
stillin' surrenges and blowin' brains
shunin' fame
motivation to build a nation
out of a fallen generation
with these verses in reverse
against the grain we move the vision
haters came in opposition
our decisions held a question
yet many copied off our mission
we desciples there's a difference
versous christians and religion
reach a man

you speak this man
but believe the truth and understand
my devotions fully focused on prevokin' ya'll to get
open to what speakin' these rhymes and how yo' life
should be defined
we keep it nice
with doors closed
throw that greek through the window and make that
sacrifice to bring it back to life
think twice but never hold back the knife

course 2x

[coffee]

ain't never called when it hit no
like a breeze comin' through the window
it's blindin' the core of ma retina
people better be changin'
we 'bout to be gettin' up on life
it's only a few who get this nice
who knew that it took sacrifice?
bring it back to life
we be the rappers, who turn back time
showin' you how to control the devine
....muffled pressures defined, blowin' ya mind
