Crushed in space, pushed through time  
Movin' cautious, obey all signs  
Warnin' lights, they flash and blind  
Make a statement but don't define  
See I'm on it, make u want it  
You ain't on it, don't condone it  
Don't you keep from tryin' to clone it  
Deep down inside u want it

Whatchu want, whatchu got, how you deal with it?  
And you get whatchu got, gotta live with it  
In the spot and it's hot, gettin' real with it  
Don't you know that beneath this flow  
Lies scorn, shameful past form  
Many regrets like the day I was born

Told myself I'd be reformed  
First, put to death take time to mourn  
Be the ace in, ah, folded hand  
Stare in the face of a scolded man  
Come up missin' on the back of a soda can  
Go out like only a soldier can

Sermons blazin' through the dark  
I'm a prince in the Pazy Park  
Through the sense, I really play my part  
Took my time before I got my start  
Now the harvest right  
For a brother like me, who the artist type  
Who love the culture through all the hype  
Hits and strike, my kiss is deadly and it be like

Crushed in space, pushed through time  
Movin' cautious, obey all signs  
Warnin' lights, they flash and blind  
Make a statement but don't define  
See I'm on it, make u want it  
You ain't on it, don't condone it  
Don't you keep from tryin' to clone it  
Deep down inside u want it

Get up, on it, don't you clone it

Deep down inside u want it  
These boys have cut the fool  
These boys from the south got nothing to lose  
On a Pettidee track can't help but move  
When Grits spit quick fire ain't nothing' but truth  
When you come down to it, ain't about the loot  
Gotta take you down through it when I'm in the mood

Gotta face them fame, hate that change  
Rearrange and break them chain  
Let us take you beyond your reign  
Let us show you what you became  
That's the goal, get it in your soul  
Shape and mold and make new from old  
Your worth is more, than you've been told  
Y'all kings and queens not pimps and hoes  
This that real, this that straw  
That break your back and can't shake it off  
Exclusive round all inclusive  
That heart to find if you lose it

Crushed in space, pushed through time  
Movin' cautious, obey all signs  
Warnin' lights, they flash and blind  
Make a statement, but don't define  
See I'm on it, make u want it  
You ain't on it, don't condone it  
Don't you keep from tryin' to clone it  
Deep down inside u want it

Crushed in space, pushed through time  
Movin' cautious, obey all signs  
Warnin' lights, they flash and blind  
Make a statement but don't define  
See I'm on it, make u want it  
You ain't on it, don't condone it  
Don't you keep from tryin' to clone it  
Deep down inside u want it

Crushed in space, pushed through time  
Movin' cautious, obey all signs  
Warnin' lights, they flash and blind  
Make a statement, but don't define  
See I'm on it, make u want it  
You ain't on it, don't condone it  
Don't you keep from tryin' to clone it  
Deep down inside u want it
