# "What Be Goin' Down"

Visit "[What Be Goin' Down](#)" on MotoLyrics.com

What be always going...  
What be always going...  
What be going down?  
What be always going...  
What be always going...  
What be going down?

What be going dizzy-own?  
Thus living in drug indolence like lotus eaters, from  
what promoters feed us,  
'Cause they need us to live up to height they flown like  
kites,  
So I'm talkative, loquacious, lop-sided but tenacious,  
Outlasting tenebrific sprits with a pen and terrific lyrics,  
Suffice the life of Christ putting natural man on ice, like  
Sesame Street live,  
Children of Corn - I shuck and jive,  
Rhymes and beats get me amped, therefore I thrive,  
Don't ever find it strange, on it you got five, I got  
change,  
Levitating like a sÃ©ance, computations of what I said  
once,  
Harnessing whirlwinds with a saddle, watching  
girlfriends battle,  
Move like a snake when I'm mad, and then my tail  
begins to rattle,  
Ripping throttles, not a forty ounce bottle to prove I'm in  
control,  
I got the wheel, with evil figurehead high on my heels,  
Squeals pierce my evenings due to constant struggles,  
I got both sides of the story to juggle.

What be always going...  
What be always going...  
What be going down?  
What be always going...  
What be always going...  
What be going down?

Thoughts of inequality,  
Overwhelming capacity of mindsets of those blessed  
with darker pigmentations,

Relations with one another is in desperate need of a  
closer observation,  
Genocidal mentality is taken from views where  
monogamy's unheard of,  
Abuse of drugs and alcohol is used as market plans,  
for money more than others sells your records - What?  
Can't you see you're a slave to the industry?  
Who'll be shaking so your daughters can be whores?  
Or represent your coast so the others become foes,  
Talk about your dealings with drugs, explain the  
feeling of money and power so the killing can continue,  
Contribute to the problem, don't talk about ways to  
solve them,  
Get your money, man, at the same time do my job,  
See, this mindset of evil execs and supremacists run in  
this,  
Now you know what's going down now.

What be always going...  
What be always going...  
What be going down?  
What be always going...  
What be always going...  
What be going down?  
What be always going...  
What be always going...  
What be going down?  
What be always going...  
What be always going...  
What be going down?
