

Grizzly Bear "Groove Is On"

Visit "[Groove Is On](#)" on MotoLyrics.com

Check it out, yeah, cos,
Life is slow when the groove is on
Yeah, right here
(Movin' nice and slow now)
(Yeah yeah yeah)
Moving closer to me
Close to me now
Yeah yeah yeah
Yeah, as if the groove is on, I'm a-spit my flow
Tripping lights fantastic, disco show
Get the mofo back in the bliss patrol
And not worry about friends or foe, oh
I just pop the X, maybe have lots of sex
I'm the next flight to a spot that's left
Saturated so its no need to stop the press
Go back and not mention the nest, yes?
As if the groove is on, I'm a-spit my flow
Tripping lights fantastic, disco show
Get the mofo back in the bliss patrol
And not worry about friends or foe, oh
As if the life is slow when the groove is on
Watch prints take shape in the music form
Anything I'm on hot now, it's the music you want
Baby it's the ??? to your soul, oh
(Close it in, close it in, close it in,
hit it again, hit again)
Life is slow when the groove is on
Life is slow when the groove is on
Life is slow when the groove is on
Tripping lights fantastic disco show
Life is slow when the groove is on
Life is slow when the groove is on
Life is slow when the groove is on
(Get it right here)
Moving closer to me
Your life is something to baby
No way no rush no maybe's
You stop and you listen to me, come on
Moving closer to me
Close to me girl
Yeah yeah yeah

(Close it in, close it in, close it in,
hit it again, hit again)
Life is slow when the groove is on
Life is slow when the groove is on
Life is slow when the groove is on
Tripping lights fantastic disco show
Life is slow when the groove is on
Life is slow when the groove is on
Life is slow when the groove is on
Moving closer to me
Life is slow when the groove is on
Life is slow when the groove is on
Life is slow when the groove is on
Tripping lights fantastic disco show
Life is slow when the groove is on
Life is slow when the groove is on
Life is slow when the groove is on
Check it out, yeah, uh, cos
Life is slow when the groove is on
Yeah, right here
