When I met you
Did I sweat you?
Didn't I let you
Do it all 'cause you ball

At the hot spot
Cover drop top
With some ice in your watch
It's so phat you forgot

But as soon as I turned my back on you
Another guy got with it
The day that I gave my heart to you
I thought that you was with it

What kind of fool am I?
What kind of love is this?
How long did you think you could play me?

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

I was at a party
Sippin' Dom P in Armani
When somebody bumped into me

Then our eyes met
And her eyes said
I could have her if I wanted that I'd only have to ask

She asked me if I had a girl
And it really didn't matter
She must not be that good to you
When I could treat you better

I don't know what to do
She wants to leave the crowd
Then she whispers to me, "Let's make out"

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter 'cause two can play that
game

If that's the way you want it that's cool with me
