This song belongs to Fantasy Project feat. Nda.

Crazy baby
The spirit of the motion
Don't let me feel devotion
And every day I'll always love you
Baby
So let me see the fire
Better step a little higher
And every day I keep on moving

Baby
You're always on my mind
So darlin'
I miss you every time
Hey hey baby baby
I feel the motion
To hold me lady
And I will always
Miss you darlin'
I want your lovin
You left me crying
Our secret love...

Crazy baby
The spirit of the motion
Don't let me feel devotion
And every day I'll always love you
Baby
So let me see the fire
Better step a little higher
And every day I keep on moving

How I live within you
How I live within you

Don't play...
Don't play my with my heart
But sometimes
We couldn't fight to start
Hey hey baby baby
You're better with me

My dreams will hold you,
And I will love you
Miss you darlin'
I want you laughin
You left me crying
It's not enough...

Crazy baby
The spirit of the motion
Don't let me feel devotion
And every day I'll always love you
Baby
So let me see the fire
Better step a little higher
And every day I keep on moving

Crazy baby
The spirit of the motion
Don't let me feel devotion
And every day I'll always love you
Baby
So let me see the fire
Better step a little higher
And every day I keep on moving

Baby
The spirit of the motion
Don't let me feel devotion
And every day I'll always love you
Baby
So let me see the fire
Better step a little higher
And every day I keep on moving

Baby
The spirit of the motion
Don't let me feel devotion
And every day I'll always love you
Baby
So let me see the fire
Better step a little higher
And every day I keep on moving
