Ever felt so.. (x3)

Remember the time
When you were here inside my dream
I wish you'll be mine
You're understanding what I mean
Discover and see
That you're the only one for me
Together we'll be free
That's how it's meant to be

[Chorus x4]

Have you ever felt so lonely
You're the one and only
Did you ever cry
Why did you say goodbye

Have you ever felt so lonely..

My home is ignotian
As darkness unfolds
The air overloaded
The sky senting moll
But you ran away
You left me to stay
We'll se us in heaven
I'm counting the days

Remember the time
When you were here inside my dream
I wish you'll be mine
You're understanding what I mean
Discover and see
That you're the only one for me
Together we'll be free
That's how it's meant to be

[Chorus x4]

Have you ever felt so lonely
You're the one and only
Did you ever cry

Why did you say goodbye

Have you ever felt so loney ?
Lonely.. (x3)

At the end of time
At the end of us
At the end of everything we have
only faith helps you
Only grace can do
Only you can take my pain

Couse the end of this is the end of life
And the end of any happieness
Only love helps you
Only trust can do
Only you can take the pain of me

My home is ignotian
As darkness unfolds
The air overloaded
The sky senting moll
But you ran away
You left me to stay
We'll se us in heaven
I'm counting the days

Remix

At the end of time
At the end of us
At the end of everything we have
Only faith helps you
Only grace can do
Only you can take my pain

Couse the end of this is the end of life
And the end of any happieness
Only love helps you
Only trust can do
Only you can take the pain of me
