Music is the vibe
So open up your eyes
Time is running out
So find the feeling
So find the feeling
So find the feeling
So find the feeling

Think about the way
How we live today
Think about the way
How some people play

Think about the way
That we live today
Think about the way
Think about the way

Think about the way
How we live today
Think about the way
How some people play

Think about the way
That we live today
Think about the way
Think about the way

I try to figure out my life
But life is going so insane
And all this pain and the trouble
All this pain in the game
I see my girl hold another
Dancing on a f*cking pole
And I be dancing undercover
Why your girlfriend gotta go, uh
So think about the way
How we live today
Think about the way
How some people play
Think about the way

How we live today
So think about the way
How some people play

Think about the way
How we live today
Think about the way
How some people play

Think about the way
That we live today
Think about the way
Think about the way

Think about the way
Think about the way

Music is the vibe
So open up your eyes
Time is running out
So find the feeling

Think about the way
How we live today
Think about the way
How some people play

Think about the way
That we live today
Think about the way
Think about the way

Think about the way
How we live today
Think about the way
How some people play

Think about the way
That we live today
Think about the way
Think about the way
