"When I Die"

My tights aren't dying
While tention grows cold
Undercover of darkness
My visions were sold
I still feel your body
Your sense and your mind
Your taint and your blessy
Will save me tonight

When I die, I die for you
This make my deepest dreams come true
Coz when I try, I try for you
My life is nothing without you
When I die, I die for you
This make my deepest dreams come true
Coz when I try, I try for you
My life is nothing without you

The seasons are turning
While dreams disappear
Undercover of darkness
I'm feeling you near
Do you see my body
My sense and my mind
Without all this pleasures
I'm loosing my life

When I die, I die for you
This make my deepest dreams come true
Coz when I try, I try for you
My life is nothing without you
When I die, I die for you
This make my deepest dreams come true
Coz when I try, I try for you
My life is nothing without you
