This is it people
Here and now
Gotto make an impression somehow
Once again we feel much at ease
Knowing you folks are so hard to please

Can't sit and complain
We're doing what we can
We like to share jokes even if their bad
We're better off laughing than fighting their fight

No matter what you say

We're down here to play
What comes out of us
Is now on display
Facing what you might say
Y'all are part of the debate

You can assure me the futur's bright
I won't shudder or fake a big smile
Being broke's nothing new
I'm bound to forget when I turn up the sound
