For the love of god, will you bite your tongue  
Before we make you swallow it  
It's moments like this where silence is golden  
(And then you speak)

No one wants to hear you  
No one wants to see you  
So desperate and pathetic  
I'm begging you to spare me  
The pleasure of your company

(When did the diamonds leave your bones?)

I'm burning down every bridge we make  
I'll watch you choke on the hearts you break  
I'm leaving out every word you said  
Go to hell for heaven's sake

I'm burning down every bridge we make  
I'll watch you choke on the hearts you break  
I'm leaving out every word you said  
Go to hell for heaven's sake

(Go to hell for heaven's sake)

No one wants to hear you (Save your breath)  
No one wants to see you  
So desperate and pathetic  
You think that no one sees this  
I think it's time you knew the truth

I'm burning down every bridge we make  
I'll watch you choke on the hearts you break  
I'm leaving out every word you said  
Go to hell for heaven's sake

I'm burning down every bridge we make  
I'll watch you choke on the hearts you break  
I'm leaving out every word you said  
Go to hell for heaven's sake

When did the diamonds leave your bones  
Leave your bones

You're not a shepherd, you're just a sheep  
I'll cut my depths of everyone you meet  
Your own flesh with no bones  
Feed them to the sharks  
And throw them to the walls

I'm burning down every bridge we make  
I'll watch you choke on the hearts you break  
I'm leaving out every word you said  
Go to hell for heaven's sake

I'm burning down every bridge we make  
I'll watch you choke on the hearts you break  
I'm leaving out every word you said  
Go to hell for heaven's sake

Go to to hell for heaven's sake  
Go to to hell for heaven's sake  
Go to to hell for heaven's sake
