I know I bend and I break all my promises
But now it's time for the truth
I keep my head in the clouds and I hope that I can't just be invisible to you.

Are you sick, are you tired, are you feeling faint?
Your lips are turning blue
I know you wish you were dead to the world
But there's something you should know

You're scared, I can see you tremble
Shaking like a dog, shitting razor blades
Feel love shadows like a stranger
Well join the club, yeah join the club

Do you wish that you could cut yourself out of your skin?
Well join the club, yeah join the club
Whatever the fuck it takes to feel like you fit in
Well join the club, yeah join the club

Life is a song with no one to dance to
Same old shit happening and nobody knows
My heart is a dead horse, there's no point in beating
Just let me sink, let me sink into the fucking ground

Fuck it

You're scared, I can see you tremble
Shaking like a dog, shitting razor blades
Feel love shadows like a stranger
Well join the club, yeah join the club

Do you think you're the only one who feels the way you do?
We're all fifty shades of fucked up
Well join the club, yeah join the club

[X2]

I know I bend and I break all my promises

But now it's time for the truth
I keep my head in the clouds and I hope that I can't just be invisible to you

You're scared, I can see you tremble
Shaking like a dog, shitting razor blades
Feel love shadows like a stranger
Well join the club, yeah join the club

Do you think you're the only one who feels the way you do?
We're all fifty shades of fucked up
Well join the club, yeah join the club
