Dead hands clutch my arm  
the smell of death fills the air  
her fragrance,  
her carcass reanimates.

if you need me ill be tying a rope to the tree  
were our love used to be.  
ive took every photo of us and buried them at sea  
don't worry dearest, beauty is only skin deep.

PSYCHE!

your beauty is no, no more.  
so why don't you just fuck yourself you fucking whore.  
"well i should of known, not to look into her eyes  
I'm cast to stone, her glare was my demise"

medusa. (2x)

your beauty is no more.  
so why don't you just fuck yourself you fucking whore.

Dead hands clutch my arm  
the smell of death fills the air  
her fragrance,  
her carcass reanimates.  
since you left me, ive never been the same  
since you left me, ive never been the fucking same.

"well i should of known, not to look into her eyes  
I'm cast to stone, her glare was my demise"

hour by hour, day by day. your memory will fade away.  
every sunrise, every sunset, will help me to forget  
your name, your smile, your eyes, medusa

decapitate her and bring her head to athena  
unlike her sisters, she ain't no deathless god.

this is for every-time you stabbed me in the back  
for every notch in your bed post  
this is or every-time you stabbed me in the back

for every notch in your bed post
