I felt your spirit hit me as I- walked in the room my heart
was vexed what happened next I
felt, so so consumed, with every word you spoke to me
I gave no reply, cuz I knew you wanted to
save me but I wouldn't comply, But you still (tried) I'm
glad you did cuz now I can't wait to
spend my (life) within your arms a savior who has loved
me more than (I) could ever ask or even
receive, you caught my eye when I learned that you
died for me

[Chorus]

I can't explain it, the lovely things that you do, whatever
it takes gotta make eye contact
with you, its so contagious you got me feeling so cool,
don't pass me by gotta make eye contact with you

You stunned my vision
I see things a bit more different different now
Had a head on collision
With fate and I don't know know how
You changed my world made me your home
And no one else allowed
To enter cause you alone inside
Makes it a full full house
No need for a deck of cards
Everything I need you are
You're my bright and shining star
Lets spend forever together
Remember when u were far
Loved me with a broken heart
But since we've made contact
Our eyes have never been apart

[Bridge]

It's not enough for me to see you in someone else, I
need to know your voice and see you for
myself, my god you've done so much in me I just can't
look back, I wanna see you face to face
and make eye contact
