[Chorus]

I had I dream I saw myself holding a microphone we  
traveled all around the world just steady  
rockin these shows, but now we're here and all I feel is  
there's so much more, our life was  
made to give away so here you go, here you go, its all  
for you  
That's how we rock, its all for you, that's how we roll, its  
all for you, we gave it all so he  
could take control come on its all for you  
That's how we rock, its all for you, that's how we roll, its  
all for you, we gave it all so he  
could take control come on

Up to bat first I disperse the ideology of girls being  
looked at like property we could be  
standing in a crowd but we still stand, I had a dream  
now I'm livin it out forget the clout I'm  
about, giving you my life for inspiration fighting for  
your soul with dedication forget being  
complacent our lives were made for so much more,  
grab my hand we walking straight through the  
door I had a I had a

I had a dream, that I would rock the mic in front of  
millions, my voice would echo off every  
building, building up an empire that through God  
would catch fire, and we would live the life  
that we desired, but soon after that a small part of me  
started crying, a little of my dream  
started dying and how could this be I thought that I was  
doing everything right, apparently he  
had much more for my life and that's when I fell asleep  
and had a new dream, saw things I've  
never seen, me adopted a baby girl and raise her as  
my little queen, own a label and sign a  
crew of soldiers that I'll raise to be business men so  
they could take over, and address our  
kings agenda, address any pretenders give you all I  
have willingly so you can enter, into a  
mind state that captivates this whole industry you're  
the new me my dreams alive when you believe

First time around We told the world we had a dream  
We in it now and obviously we still a team  
the dream was never to wanna achieve the green so  
we've taken the paper we seen and revised our  
theme yeah we want the top rock things that are hot but  
more importantly we wanna get you out  
the block yeah we all deserve the nicer things in life the  
rings are nice camera lights imagine  
if we took that and we all unite you wanna know why we  
rock these show its for the sole purpose  
of recruiting more people let me fill you in game plan  
first I was the beat man then I spit sixteen just because  
I can  
I didn't know music was a stepping stone that put me  
strategically  
infront of those who would help my destiny and help  
me help those who have need a dream is  
just a starting point for a bigger goal
