I wanna make, I wanna make  
Eye contact with You, yeah  
Eye contact, eye contact with You

I felt Your spirit hit me as I walked in the room  
My heart was vexed, what happened next I felt so, so  
consumed  
With every word You spoke to me I gave no reply  
'Cause I knew You wanted to save me but I  
wouldn't comply

But You still tried, I'm glad You did  
'Cause now I can't wait to spend my life  
Within Your arms, a Savior who has loved me  
More than I could ever ask or even receive  
You caught my eye when I learned that You died for me

I can't explain it, the lovely things that You do  
Whatever it takes, gotta make eye contact with You  
It's so contagious, You got me feeling so cool  
Don't pass me by, wanna make eye contact  
with You  
Whatever it takes, gotta make eye contact with You  
Whatever it takes, gotta make eye contact with You

You stunned my vision, I see things a bit more  
different, different now  
Had a head on collision with fate and I don't know, know how  
You changed my world, made me Your home and no  
one else is allowed  
To enter 'cause You alone inside, make it a full, full  
house

No need for a deck of cards, everything I need You are  
You're my bright and shining star, let's spend  
forever together  
Remember when You were far, loved me with a broken  
heart  
But since we've made contact, our eyes have  
never been apart

I can't explain it, the lovely things that You do  
Whatever it takes, gotta make eye contact with You  
It's so contagious, You got me feeling so cool  
Don't pass me by, wanna make eye contact  
with You  
Don't pass me by, wanna make eye contact  
with You  
Whatever it takes, gotta make eye contact with You

It's not enough for me to see You in someone  
else  
I need to know Your voice and see You for myself  
My God, You've done so much in me, I just  
can't look back  
I wanna see You face to face and make eye, let's go

Oh Lord, I wanna make eye contact, eye contact with  
You  
Oh Lord, I wanna make eye contact, eye contact with  
You  
I gotta make eye contact with You, with You, with You

I can't explain it, the lovely things that You do  
Whatever it takes, gotta make eye contact with You  
It's so contagious, You got me feeling so cool  
Don't pass me by, wanna make eye contact  
with You  
Whatever it takes, gotta make eye contact with You  
Whatever it takes, gotta make eye contact with You
