Uh, check it out..

Walkin' through the ghetto and the feelin' is fine

Relaxation, no frustration

Cause it's time to get live

One hand whatches the other in this lonely street

No justice, no peace

Motherfuckers mo-il

So we struggle and strive

Niggas just to stay alive

I send fear in this pussy rappers rhymin' ok

Yo we speak what we feel

And what we feel must be real

Baby Pa, you know the deal...
