So many things have been going around
About me babe, Everyone knows more about me
then i do
I've heard Stories that are hard to believe
So i'm asking you to trust in me,
Cause i don't want them to decieve my babe

[Chorus]

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

Was all good when no one knew
How close we were, our little secrets
But now it seems that everyone knows
All about u
baby we have come so far,
And i would have to be insane
To ever wanna let you go
And give up everything my Babe

[Chorus]

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

Pleeease don't recieve a word

that comes from envy
They just want to steal the joy u have (take it away)
Pleeease understand deceiving u is not in me
The pain that it woke up, I could not bare

[Chorus]

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

Girl you gotta trust me,
Believe me,
if you really love me,
I would never lie,
You gotta trust me
Believe me,
if you really want me girl
You gotta believe that

i will always tell the truth,
nothing but the truth will do
There's no need to lie to you
But you have to trust it too

i will always tell the truth,
nothing but the truth will do
There's no need to lie to you
But you have to trust it too

[chorus]

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true

If it didn't come from me
Tell me why would you believe it
If i say that it's not true
Then believe that it's not true
