Scream and die  
Scream and die  
Scream, scream  
Scream, scream  
Scream and die  
Scream and die  
Scream, scream  
Scream, scream  
Scream and die  
Scream and die

Remote in fog, a beautiful stranger  
Dares to enter, seeking her lover  
But finding a horror that whispers  
Scream and die

No one is safe, there's no escape  
From the voice that whispers  
Scream and die

The nightmare begins  
That pursues her relentlessly  
Destroys those around her savagely  
Nothing can silence the voice that whispers  
Scream and die

No one is safe, there's no escape  
From the voice that whispers  
Scream and die

Scream and die  
Scream and die  
Scream, scream  
Scream, scream  
Scream and die
