You got a hypodermic needle  
To help you get away  
Found some new miracle drug  
To help edge the pain  
Just hoping and praying  
It'll take you away  
Is it all just illusion  
Slow death  
Slow death  
Slow death  
Slow death  
Death is gettin' in as the precious life  
Is being drained from body and soul  
You know it won't be long 'till your  
Identity becomes impossible to find  
Maybe next time you'll take a little bit more  
Bringing death closer than before  
'Till they find you  
You're fuckin' dead  
On the bathroom floor
