Opening Lyrics

Forget prior engagements
Cancel your plans
Let's do something amazing while we still can

Main Lyrics

I can't breathe under water
I can't stand in the air
But I could tear up your whole world
And then not even care

Complete Lyrics

Forget Prior engagements
Cancel your plans
Let's do something amazing
Why we still can
I'm floating above you
High on your kiss
We're splashed like paint on the pavement
A beautiful waste
I'll drop bombs in the valley
If he comes near you
I'm gonna make something happen
Watch what you do
I can't breathe underwater
I can't stand in the air
But I will tear up your whole world
And not even care
So make lists of your lovers
People you kiss
Then tear them to pieces
Forget they exist
My hometown's a wasteland
Frightened of ghosts
We're splashed like paint on the pavement
This isn't my home
