"You Are The Same"

Visit "[You Are The Same](#)" on MotoLyrics.com

VERSE:

When I feel alone - I can go away
To place I know - where i see Your face
When the day is old - and the sun has set
IN Your hands alone - can my needs be met

CHORUS:

You know my voice - You know my name
Yesterday today and tomorrow - You are the same

When I say today I love You then tomorrow let You
down
When I tell You You're the Kind and then I try to take
Your crown
When the things I do are different than the promises
I've made
Your love for me never changes

VERSE:

When the well is dry - when I'm out of steam
You revive my heart - And You restore the dream
And when there's nothing left - in this world to do
I can close my eyes - and find sweet rest in You

ENDING:

You're the same - You are the same
You're the same - You are the same
