Since I found out that all of this  
Is nothing more than emptiness  
Filled with impermanence  
A guided tour of your deepest fears  
Designed to help your vision clear

We'll depart from here  
And then the strangest feeling drifted over me  
Oh, we'll begin where you give in, now baby, dear

Are thou misunderstood?  
I'll drink all day and play by night  
Upon my Casio electric piano  
Till in the darkness I see lights  
But not candelabra  
But things from other stars

Just like Liberace  
I will return to haunt you with peculiar piano riffs  
So take it back, back to the start

Rip out your lily-livered hearts  
And hand them over in a vacuum-sealed jar

I say I will not take half a risk  
I will not walk half deceased  
I believe bravery exists  
And the strangest feeling drifted over me

Are thou misunderstood?  
I'll drink all day and play by night  
Upon my Casio electric piano  
Till in the darkness I see lights  
But not candelabra  
But things from other stars

I'll drink all day and play by night  
Upon my Casio electric piano  
Till in the darkness I see lights  
But not candelabra  
But things from other stars  
But things from other stars

But things from other stars
