Wu-Tang, Wu-Tang - ONYX!!

Wu-Tang, Wu-Tang - ONYX!!

[Raekwon]

Aiyyo, staircase to stage now, major waves
Tanktop Nautica, flippin your daughter thirty ways
Yeah who want mine? Bent outta shape, one time
Play the mall, starin at your beautiful, sunshine
Watch my shit shift, niggaz in the back, wigs lift
You know the stats God, don't even ask pah, back slit
Raw drug raps, thug hats and mob hats, spit on that cat
This yellow love nigga fuckin with a rich cat
My shit now, 5 feet 6, with a crisp hat plush
Throwin down on thirty bricks, niggaz is with that
Though, federados locked my man yo, hit lotto
Three-hundred thousand dollars in the bottle, bitch
math is how
my technique, rover in the robe, gold link
You know the code read, suitcase money, stow heat
Rock Navi's though, hundred dollar bags valet
That nigga crabbed me, gamin himself, like Milton
Bradley

[Fredro Starr]

Yo the semi-automatic glock this, unlock this
The weed spots get knocked, it's so hot chicks is
topless
Whips are spotless, chrome rims spin obnoxious
You can't knock this, bust a shot you better not miss

[X-1]

X-1 wild out, and make you watch this
'til your eyes turn red with blotches, eatin scraps out
the garbage
Unload a cartridge, and bust a cap
X could never trust a cat, Onyx is as hot as it gets
Bitches fuckin for free, is outta the quest'
Blow blood outta your flesh, your body outta your vest

[Fredro Starr]

I draws the heat from across the street

Fly you up off your feet, you die livin short but sweet
Street crime, time is money, nigga don't waste mine
Dispose my 9, throwin your shine, your froze in time
Lookin at death, holdin your breath, laid out
On the dance floor, blood and Moet, I'm blowin your set
Trick twenty G's, no sweat, your goin in debt
I'm goin for broke, I'm blowin out smoke, you catch a
stroke

[X-1]

Wu-Tang and Baldhedz, Swiss foreheads, leave you all
red
X-Milli-on, fully armed, illest beyond your realest form
Bringin the storm, forseein you warned
Nuttin keepin me calm but heat in my palm
Sleep and you gone, you see what I'm on? Creepin
outta the dark
Scatter your parts from here to Battery Park

[Chorus: ODB samples from "Protect Ya Neck (Radio
Edit)"]

First things first man, you're {fuckin} with the worst
First things first man, you're {fuckin} with the worst
First things first man, you're {fuckin} with the worst
You can't slam, don't let me get fool on him man!

[Suave]

Steal master grab half the cash fast and bash
and splash yo' class, mash your staff, WHAT?!
Nigga get smacked, you ain't worth a punch, hurt your

Get merked in front, in the wrong circle punk!
Mack clever niggaz dat regga'
Catch you on the d-lo in Mecca and Etch-a-Sketch ya
Shake and erase, vacatin your space, breakin your face
Straighten your waist, twist you, and won't miss you
Official Nast and Killa Bee, full blast, get off smash
Pull fast for your stash
Long as the war last, foot up in your ass
Tryin to count more math, bring in the hardcore rap

[Killa Sin]

Yo; we be the mainstream
supreme rhyme top of the line cuisine fiends
Number one love for thugs queens schemin on cream
My whole team love, the E-cup bras and mobb cars
Killa Sin known for makin niggaz reach for the stars
This terrorist, lyricist in the midst of the abyss
We cannabis evangelists, iron palms with metal fists
Wu build, like construction and bang, like percussion
All the Planet Battery packs combust and malfunction,
