VERSE1

I get a rush
When I'm close to you
When we touch
Temperature's through the roof
Fill me up
I could spend my whole life with you
Wanna roll with you

The way you got me hypnotized
I get crossed lookin in your eyes
I'm helpless, the way you got my mind
You're in control, don't you know

BRIDGE

I listen
Every time you speak to my heart
You got my
Attention
(I hear you loud and clear when you callin me, you got
all of me)
I'm so addicted
Only way to get a fix is
When you speak
To my heart
When you speak
To my heart, to my heart

CHORUS

It speaks back like HELLO
Where you been at
Where you come from
You're so d*** right for me
You're so right for me
So right for me
Every single time it beats

Can you hear me sayin HELLO
You gotta know the feelin
What you're tryna do
Can't you hear my heart sayin HELLO?
Where you come from

You're so d*** right for me
You're so right for me

VERSE 2

The way I feel
Boy you change my face
And it shows
I don't even have to say
I've been exposed

Ain't no comin back from what you do
Boy I'm lovin you

It kinda caught me by surprise
Feel like I've been knowing you all of my life
I can't get you off my mind
You're in control, don't you know

BRIDGE

I listen
Every time you speak to my heart
You got my
Attention
(I hear you loud and clear when you callin me, you got
all of me)
I'm so addicted
Only way to get a fix is
When you speak
To my heart
When you speak
To my heart, to my heart

CHORUS

It speaks back like HELLO
Where you been at
Where you come from
You're so d*** right for me
You're so right for me
So right for me
Every single time it beats

Can you hear me sayin HELLO
You gotta know the feelin
What you're tryna do
Can't you hear my heart sayin HELLO?
Where you come from
You're so d*** right for me
You're so right for me
You're so right for me

BRIDGE

I can't believe this love is really takin over like this
You showed me how to fly and now I never wanna come
down
Baby, this energy is unbelievable
You're everything I been looking for
Anywhere you take me, ohhhhh

CHORUS (fade out)
