Candy candy the taste of love
Its half past ten and you start to shove
With spicy boys
And girls it's on you
The groove is on
So don't be cruel

Candy candy makes you hot
Our capacity burns the quality shocks
The flavour is good
I'll give you some more
It was once a phantasy

Candy love
It's a candy like this

Candy love

Candy candy it's eleven o'clock
The time is right to fall in love
With spicy boys
Girls it's on you

Music can be like an insanity
Its my life a stronger philosophy
It doesnt matter what style we are doing
Crossover, nu rock, hip hop oder scheisskram
