Stand up  
Don't sit in the dark  
Or should I call out the name of Diokhan  
The penetration of my brain is so sick  
I feel it every night  
Wounds and licks  
Beyond the days of sympathy  
A tragic friendship lost in me  
Now pull the nails out of my body  
The beast is a mirror  
And the mirror shot me

Would you leave my head  
I'm inside your crimes  
Calling out the name of Diokhan

Stand up  
Don't sit in the dark  
You are still creeping here  
And drinking another shark  
The illustration of your mind is just a trick  
I smell it everywhere  
Rooks tres chique  
Beyond the nights of agony  
A thousand friendships live in me  
Now pull the nails out of my body  
The beast is a rhythm  
And the rhythm got me

Would you leave my head  
I'm inside your mind  
Calling out the name of Diokhan

Vanity  
Is a therapy  
In your eyes  
Now you got to learn to breathe  
Irony  
Is security  
In your eyes  
Now you got to learn to breathe

Vanity  
Is a therapy  
In your eyes  
Now you got to learn to breathe  
Irony  
Is security  
In your eyes  
Now you got to learn to breathe

Like a spy in my own army  
You have come to march all over me  
I turn my back  
You take your chance  
I feel the knife  
Twist and turn at me
