"Fire"

Visit "[Fire](#)" on MotoLyrics.com

Hey you there, how you doin'
Can I ask you something
Are you dead or alive
I saw you running through the night
And like always you eat and you're are watching TV
You don't look that good or is something wrong with
me
I can't wait until you operate
And now you hide in the bed and you're not coming out
Why is it so hard now
Do you want me to get loud
Do you want me to wash it out for you tonight

When you're drifting slowly away
I'll be here to bring you the day
With fire in my eyes
I'll be like fire in your eyes
When you hide yourself from the light
I'll be here to burn you inside
With fire in my eyes
That fire in your eyes
I just keep on filling up with all my love

Somebody put you on the hot track
Just one way to go
A fire injection
From heart into your soul
So you don't get hurt when you will fall

When you're drifting slowly away
I'll be here to bring you the day
With fire in my eyes
I'll be like fire in your eyes
When you hide yourself from the light
I'll be here to burn you inside
With fire in my eyes
That fire in your eyes
I will keep on filling up with all my love

And you know I am right
I'm looking for your light

And I'm running after you, I'm running after you
And you know I was right
I'm looking for your light
And I'm running after you, I'm running after you
Come on
Come on
Come on
Come on

See the fire in your eyes
See the fire in your eyes

When you're drifting slowly away
I'll be here to bring you the day
With fire in my eyes
With fire in my eyes
I just keep on filling up with all my love
