Could you step away? I'm a vicious girl  
Could you fill the break?  
We're on the right way, to swing the little axe  
It's the right day, to give up the tax

We use the pain, for our fantasy  
We need some pain, to find the right way  
We love the pain and want some more of it  
Control the pain, chicken head

Right way turning, listen we are learning  
Head full of noise, chickens got no choice  
Heads are rollin', chicken blood is stolen  
The rest of the chicken, wants to picke-nicken

Could you feed your chicken?  
'Cause I'm hungering  
Drinks and chips for free  
The muscles like Bruce Lee

We use the pain, for our fantasy  
We need some pain, to find the right way  
We love the pain and want some more of it  
Control the pain, chicken head

Right way turning, listen we are learning  
Head full of noise, chickens got no choice  
Heads are rollin', chicken blood is stolen  
The rest of the chicken, wants to picke-nicken

Painfull, the table's red, big storm and no regret  
Dark side, we use the pain  
Captain, we are lost insane  
Mother, we cut the dump, mother  
Mother, we all, we all, we all

Right way turning, listen we are learning  
Head full of noise, chickens got no choice  
Heads are rollin', chicken blood is stolen  
The rest of the chicken, wants to picke-nicken
