[Verse 1:]

Bricksquad ashless cocos, we get ashcriss  
Say that that's your bitch but nigga we did action  
Spent 10 Billion dollars of BBS's  
Woke up in Texas, he text me, I start flexing  
Diamonds chains sexy, my pistol is my best friend  
I haven't killed in so many years, I get rusty  
Hustling, my 40 keep budging in on the justice  
These scary niggas calling the cops, but I ain't  
touched them  
Finessed em, tricked them, leopards, that's on  
Simpson  
Impress them, a victim, another lead hit successful  
My weapon, F it, John W wanna happen  
And since you said you looking for Gucci, I'm on  
aggression

[Hook:]

Don't trust me, I'll take some, I'll take some, I'll  
take some  
Don't trust me, I'll take some, I'll take some, I'll  
take some  
Don't trust him, he'll take some, he'll take some,  
we'll take some  
Don't trust us, I'll take some, I'll take some, I'll  
take some

[Verse 2:]

Work for couple mill, still I take some  
24 hours, got the base running  
Sale swag bad, I got freights coming  
Say you swag pack, take it back from you  
Them diamonds round your wrist, cause you a lot of  
problems  
You scared to touch your ice, cause you don't want no  
problems  
These young niggas out here hungry, they say it's no  
more starving  
Finessing jewelry season, everybody robbing  
Don't trust me, cause I'm from the streets  
Going drug shoppin, cop a couple of keys

I finesse the plug, when we don't agree  
Dummy bank rolls, send em over seas

[Hook:]

Don't trust me, I'll take some, I'll take some, I'll  
take some

Don't trust me, I'll take some, I'll take some, I'll  
take some

Don't trust him, he'll take some, he'll take some,  
we'll take some

Don't trust us, I'll take some, I'll take some, I'll  
take some

[Verse 3:]

Ya'll niggas know how I move, y'all niggas know  
what it do

Versace frames on my face, I'm a 4 wided fool  
If I should blue with your boo, pay mine to do on my  
coupe

A quarter brick for the booze, at least a 4 of them  
deuce

You know I shoot through my jacket, you call the troops  
for your truce

Full metal jacket a savage, I put 3 mill on your crew  
The world grenade in the room, watch all your partners  
kaboom

I'm a so icy tycoon, got 2 balloons in my troops  
Is you gon hoe up or blow up? Is you gonn grow up or  
throw up

Cause I got dojos to roll up and I might pour us a 4  
I can't drive a Corolla, roll around in a roller

That's a drop in Rolls Royce, y'all niggas act like you  
know us

[Hook:]

Don't trust me, I'll take some, I'll take some, I'll  
take some

Don't trust me, I'll take some, I'll take some, I'll  
take some

Don't trust him, he'll take some, he'll take some,  
we'll take some

Don't trust us, I'll take some, I'll take some, I'll  
take some
