Somebody stop me tha kid done got started
Somebody gonna get drunk this evenin
Gucci got street thug more than cleveland
Million on my ice did it just to make a statement
500 tip left it with the waitress
Shawty say she like me really love my bracelet
Like my liquor white so you know I aint racist
The other nite shinin with my multicolor jacob
I don't do the pushup, but I do the cook up
So I think I need a pullup, blue diamonds blind you
everytime I dig a booga
Gucci Mane concert everybody on front

Gucci Mane haters sick of me
Like the last thang I ate they aint shit to me
Eat filet mignon and it stick to me
Friendly neighbor fly paper stick to me
Get rained on hoes get rained on
So icey boy everybody got a chain on
What it do, what it do? I can't count it
I'm Gucci mane laflare and I'm addicted to ballin
Ballin in the club drunker than a sailor
Double shot of joose got me standin on the table
Comin to late got me snappin on the waiter
You fucked up the swag you a mutherfuckin hater
Yeahhhh that's the business kush got me drowsy
Pills got me lifted, lean got me leanin you can say I'm

20, 000 frames and they custom made
Clear diamonds on them thangs so it's hard to say

Got a girl at the blaze snort a ounce a day
She want a armorale cocktail?
Baby say she want a party I brought a cake
Told her clean the plate she can't feel her face
In the club you can spot us from a mile away
Diamonds in the rain look like alize
Diamonds in my chain look like ocean spray
And the storms aint cloudy I make it rain
Got my girl comin in on a private plane
Soon as she touch down make her do it again
In the club gucci mane doin doin tha dance
G5 yea that's a hell of a plan
Suicide doors dem niggas
Used to play the cards that were dealt now I'm dealin
them nigga
