[Verse 1: Gucci Mane]

I got them Robin jeans saggin' and I ain't even
bragging
I gave the bitch 500 fuck it, I ain't even?
Now I'm getting older rocking Gucci, Louie loafers
I still remember the first day that I ain't have to serve
smokers
You brought sand to the beach, I brought toast to the
social
I gave your girlfriend an autographed Gucci Mane
poster
It ain't nothing mothafuckin' sleeping, hell yea I got
shooters
I'm the plug to the plug, I'm a goddamn?
You ain't no mothafuckin' gangsta, you's a
goddamn groupie
And you getting in the way 'cause ya homegirl
choosing
On my birthday, Gucci want a brand new Uzi
On my worst day, I'm worth 10 mil no jewelry

[Hook]

Killers waiting in the bushes just to tie ya ass up
Gave my young nigga a dub and told him fire ya ass up
It seem like everywhere you go, somebody try yo ass
up
I got real money nigga, I can buy my own luck
Headshots, headshots
All my young niggas aiming headshots
Headshots, headshots
Put a dub on your head, headshots
Headshots

[Verse 2: Rick Ross]

Your son called you a dead beat
Step on my feet nigga, you dead meat
I'm grinding up this ground beef
I think they just wanna surround me
Self made with a brick too
Nigga shoes dirty but the stick new
In the twelfth grade with a big crew

Now Iâ€™m well paid, I can flip few
Holding on to my dick, Michael Corleone, bitch
Head shot like Fredo, fuck nigga donâ€™t flinch
The empire back, that empire back
I got some whip out in Fulton, my brick just keep
bouncing back

[Hook]

[Verse 3: Gucci Mane]

Couple niggas got killed at my show last weekend
But how am I to blame if they were already beefing
When they first started shooting man we was just
leaving
Try Bricksquad and we wonâ€™t let you get off that easy
Gucci Mane the CEO I feel like Eazy
The rap game love me but the dope game need me
Baby says she never seen a nigga so freezy
But these VVS diamonds make me feel like Meech
I had a pistol in the club the first day I met Weezy
AR in the car the first day I met Jeezy
When I first started dissing niggas? teasing
Glock 40 on my hip, it was just me and MacBreezy
