White girl, white girl, girl, girl
White girl, white girl, night girl, night girl

I'm from Houston where the
Got a white girlfriend she be acting the
She can get you knocked out with the point of a finger
And she don't talk to strangers, she got red tangas
Got coke in the and the lawyer
So you hard so you soft, she got all kinds of angles
And it's California kush that got me talking like I'm
Playing with my money then I'm calling my attorney
And them people can't believe that Gucci man got
jungle fever
And I think I love this girl because her price is hella
cheaper
And like lu said it's better to loose a love than love a
leaver
Running around town with them choppers about the
same size

I fell in love with the white girls
I love them pretty, them white girls
I'm in the spot full of white girls
I'm in the drop with the white girls
I fell in love with the white girls
It was love at first sight girl
I'm in the club full of white girls
I'll be your boyfriend for the night girl

Mexican, hose, you don't say
Chopper bullets, rotate
Hundred round ak
Young n-gga thug bitching on color
Pocket full of money and all I'm taking dollars eh
White girl crazy, rich got lazy
Never been a racist, a white girl pay me
My credit card new bitch brown skin
Duffle bag full of that green sh*t
Ain't nothing like my white friend
White benz, white on white
Rolling on my grown man

30 in that bitch
I love that white girl, and I beat her like
Screaming like the og

I fell in love with the white girls
I love them pretty, them white girls
I'm in the spot full of white girls
I'm in the drop with the white girls
I fell in love with the white girls
It was love at first sight girl
I'm in the club full of white girls
I'll be your boyfriend for the night girl

Creep out through the day, creature of the night
Let her sit on your face, she'll get you high as a kite
She knows just what you like, I know just what you need
If them white girls you like, bet I got one of your type
Have a blunt for the day, brunette for the night
She got my pockets I bring her out in the light
She f-ck with me cause I'm the man
I'm passing kush out to my fans
And I don't think you understand she got me

I fell in love with the white girls
I love them pretty, them white girls
I'm in the spot full of white girls
I'm in the drop with the white girls
I fell in love with the white girls
It was love at first sight girl
I'm in the club full of white girls
I'll be your boyfriend for the night girl
