Bitch

Multiply, Divide me, Then add on the remainder  
I push more weight then a personal trainer  
I get my gucci duffle bag and my hat off the shelf  
Im a stylelist of a star cause i style myself  
And im dancin with the stars, dancin by myself  
I was lost so i had to go an find myself  
You can take all my well check's, Leave my health  
Cause i cant count all this money think i need some  
help,  
It's the franchise of zone 6 no jazze cheif  
i got drumma boy on the track so dont hold your  
breathe  
im so icy but my flow will make the soldiers melt  
i sewed the game up like my granny sewed a quilt  
Gucci  
Make a billion dollars what im tryna do  
Gucci Mane La Flare im so tired of you  
And if i had the time i would be sleepin too  
but im workin these streets like a prostitute  
they tell me rest up i say i leave the rest for you  
cause right now im chasin check's like a lawyer do  
so dont bother me and i wont have to bother you  
im just out here chasin cash like a monster fool

I got money on my mind like its changin my brain  
And in the drought, water spout, gucci brings the rain  
aka the candy the candy cain, Aint proud of the fact i  
sold everything  
and i done did all the drugs, but guess what gucci  
mane can sell out a club  
An next guess ima have a major buzz  
im so international i get london love

im no amateur my money skretches way past the  
perimeter  
so hot i brake thermometer, my cash goes 3 kilometer's  
in front of you is a conqueror, please dont sit on my  
furniture  
my niggas stand right beside me, but your niggas up  
unda you

Make a billion dollars what im tryna do  
Gucci Mane La Flare im so tired of you  
And if i had the time i would be sleepin too  
but im workin these streets like a prostitute

they tell me rest up i say i leave the rest for you  
cause right now im chasin check's like a lawyer do  
so dont bother me and i wont have to bother you  
im just out here chasin cash like a monster fool
