(Verse)

Already made so many bricks, so, so many splits  
I don't tricked so many niggas, had to hit so many licks  
On the streets I pair my Reeboks and I'm higher than  
the troops  
And my chopper is on unlock more guns than a  
gunshot  
I got this stuck up bitch just smoking kush, she said she  
got the hiccups  
Smashed her with my pickle, when she call up I don't  
pick up  
I walk in, I take my make up, splash the bitch then wash  
my dick off  
I know you thought I did a show but I just dropped two  
half of bricks off  
And I never stop trapping, I won't retire  
These niggas just rapping, these niggas really liars  
I'm smoking on power, whipping on power  
And these suckers might swag but it really makes me  
prouder

Rerock remix, remix rerock

Finesse king, I got brick shops  
I break them down, they get polished up  
And pulled back together, got bricks up in leather  
So hot as a rock I put 'em on the block  
And then yall traffic stop, I got all this guap  
From the remix block, my hustle never stops  
I fell off, I had to remix my way to the top  
You want some free bands? Better rerock  
I get 'em A1 and then I rerock  
You try to kick the door you get here with a rocket  
Number plugs 'round me, Young Scooter to sake

(Verse)

Really I didn't have a trust or early age on top of the porch  
Or early age I wanna go Porsche, no dope boy driving no Rolls Royce  
Dope boy got me hosed much, you hear how dope boy got my voice  
Used to remix out on banks and have my bumped down mix juice  
Remix everything just to make a profit  
Yeah, motherfucking money the only option  
Man, I can't go broke again,  
Gotta double up, double up, hustle up, hustle up,  
Babe, I'mma hustle up your man a customer  
I don't get murder over fucking money, what you know?  
Used to be in your neighborhood in the center rows  
You'll find out, you sent them hoes,  
Put the blunt on fast, we spend it and go
