All I wanted was a girlfriend
A girl to be my one true friend
For all all my life
Someone to one day maybe marry
But you just use me up and spit
(Spit)
Me out night after night

You don't even like me, but
Then you're obsessed
You tell me to shut up and
Just get undressed

We're trapped in the flood of this feeling
We've let this thing come between us
I needed someone to love all of me
But you're just a friend to my penis

I'm not just a cock on legs
You won't hold me down any longer
I'm not just a cock on legs
Each day you'll feel me getting stronger and stronger
And longer

I live, I breathe and I think
That you really should respect me
Because I've read Proust
And philosophy and art
I'm not just a body part
But I can't lie, I feel used

You don't even hold my hand
When we are out
But honey, there's more to me
Than that thing in your mouth

Oh, if you could truly see me
The crazy dreamer hooked on romance
Truly see the man that I could be
Not just a man with your hands down his pants

I'm not just a cock on legs

I have my pride you can't take it
I'm not just a cock on legs
I never orgasmed with you
I faked it
I faked it

When you're out with your clique
You ignore me, you don't speak
Guess I'm your dirty little secret
Should I let the hold world know
That you just come and then you go?
Your filthy thoughts have stained my sheets

You don't even know how to
Make me feel like a man
You just go through the emotions
It's time I'm making a stand

Cause sex is a spiritual journey
To take us to the distant stars
You're happy with a hasty hand shandy
After the show at the back of the bar

I'm not just a cock on legs
I'd settle down and have children if you would
I'm not just a cock on legs
My sperm isn't there just to taste good
But it tastes good
It's vegetarian
It's good for you

Cock on
Cock on
Cock on legs

These legs were made for walking out on you
And when they walk they'll take my cock, too

Cock on legs
Cock on legs
Cock on legs
