Hear your call  
Don't understand your sense of urgency  
And who will catch us if you fall?  
You play around with our security  
So here we go

Won't you try  
To make us  
I want to know just what we are  
The end is drawing near its time to begin

And everything about your life  
Is burning deep in me here  
And I will be there for you  
Will you be there for me?  
Here we go

I have seen  
A vision burning brightly in front of me  
And I will wait until you call  
Diving into uncertainty  
And everything about your life  
Is burning deep in me here  
And I will be there for you  
If you will be there for me  
Will the two of us belong?  
It's a place where the two of us belong  
It's the place where the two of us belong

Hear me call  
You'll understand the reason in my mind  
For I will be there when you fall  
I've lived this life too long and did survive  
In the place where the two of us belong  
It's the place where the two of us belong  
It's the place where the two of us belong  
Oh ohh  
Here we go, here we go!

Ohh ohh oh

Here we go

It's the place where the two of us belong  
It's the place where the two of us belong  
It's the place where the two of us belong
