She climbs  
Right down onto me  
Understand  
I believe in anything  
And tonight you're everything

(oooh oooh ooh)  
In a place i've never been  
Though not equally concerned  
Everything I'll ever need  
Tonight you're here with me

Days pass me by  
This way  
Finding hope  
When I see a strangers face  
As the night falls into place

In a place I've never been  
Though not equally concerned  
Everything I'll ever need  
Tonight you're here with me

Collide  
Crash into me  
Feeling myself go  
Collide  
Crash into me  
Who is control?  
In control

Time slow time goes  
My mind  
Fading fast  
As I see the things I do  
And I know you see right through

In a place I've never been  
Though not equally concerned  
Everything I'll ever need  
Tonight you're here with me

Collide  
Crash into me  
Feeling myself go  
Collide crash into me  
Who is in control?  
In control

In control  
Tonight you're here with me  
Collide  
Crash into me  
Feeling myself go  
Collide  
Crash into me  
Who is in control?

oooh ohhh

Collide  
Feeling myself go  
Collide  
Who is in control?  
Feeling myself go

In control
