Every day and night I am happy  
Yeah it's out of sight  
She can see me  
When I see the light I am happy  
Yeah it feels so right  
She can touch me  
Every night I follow her  
She takes me far away to another world  
She takes me deep inside  
She takes me for a ride  
When I watch it fly I am lonely  
Afraid to say goodbye  
She won't hurt me  
When time passes by I am lonely  
Falling from the sky  
She will catch me  
She's out of sight the way she moves  
The things she does to make me happy  
She is out of sight  
She's out of sight the way she moves  
The things she does to make me happy  
She is out of sight  
Every day and night I am happy  
Yeah she's in my sight  
Why can't she see me  
When I see the light I am happy  
Yeah it would feel right  
If she could touch me  
She takes me deep inside  
She takes me for a ride  
She's out of sight the way she moves  
The things she does to make me happy  
She is out of sight  
Yeah she takes me for a ride
