I've seen your face
Many times before
When I was lost
You opened the door
You gave me hope
When I had none
Yes

I've heard your voice
Inside my head
Lifting me up
With all that you said
You gave me strength
When I had nothing left

When I leave this life
I'm coming
I'm coming home to you
What I leave behind is nothing
Cause nothing compares to you

I've looked in your eyes
I've seen how you shine
In darkest days
You were my light
You gave me love
I know will never end

When I leave this life
I'm coming
I'm coming home to you
What I leave behind is nothing
Cause nothing compares to you

When I leave this life
I'm coming
I'm coming home to you
What I leave behind is nothing
Cause nothing compares to you

When I leave this life

I'm coming
I'm coming home to you
What I leave behind is nothing
Cause nothing compares to you

When I leave this life
I'm coming
I'm coming home to you
What I leave behind is nothing
Cause nothing compares to you

When I leave this life
When I leave this life
When I leave this life
I'm coming home to you
