"Until Your Gone"

Tell me

What's going on here

Cause I need to know

Girl I finally feel

Like I belong here

And I already to go home

(chorus)

Be my happily ever after

No more talk of good bye

I'll tell you why

This I s where I feel I belong

Next to you right here

I thought that I'd tell you with this song

Don't wanna wait

Until your gone

Show me

How do I get to

You forgiving me

It's been a long road home

But I finally found you

And I already to leave

(chorus)

Till your gone

Till your gone

Until your gone

This is were I feel I belong

Next to you right here

I thought that I'd tell you with this song

Don't wanna wait

Until your gone
