"Lemon Light"

Visit "[Lemon Light](#)" on MotoLyrics.com

Light up the club I'm on the box
Put down my drink lime and coke on the rocks
I got the feeling so let me stand up
Give me the platform and don't let me stop
Dancin' and teasin' and pleasin' your eye
I breathe heavy when you touch my thigh
Come closer baby
Dance in the light
I got seven digits come don't be shy

Lemon light shine me a man on the dancehall
Lemon light make me feel hot on the dance floor
Lemon light shine me a man on the dancehall
Lemon light make me feel hot on the dance floor

Strobes are beaming my body's feening
For you to squeeze me tight
Give me some action
My heart's reacting
You got the rhythm move me right
Shaking my hips your hands on my waistline
Grindin' to the beat don't stop 'til the sunlight
Pulses locking my body's poppin'
Under the lemon light
Under the lemon light

Let me please you baby...
Ooh mmm...

Euphoric feeling spotlight is hot
Don't hold back the flow when you hit the spot
Curvaceous body to make you steam up
Your personal gogo riling you up
Dancing and teasing and pleasing your eye
Sweatin' all sexy all through the night
Come closer baby
Dance in the light
I got seven digits come don't be shy

Lemon light shine me a man on the dancehall
Lemon light make me feel hot on the dance floor
Lemon light shine me a man on the dancehall

Lemon light make me feel hot on the dance floor

Strobes are beaming my body's feening
For you to squeeze me tight

Give me some action
My heart's reacting
You got the rhythm move me right
Shaking my hips your hands on my waistline
Grindin' to the beat don't stop 'til the sunlight
Pulses locking my body's poppin'
Under the lemon light
Under the lemon light

Ohhh people move your feet...

Ugh ugh
(Laugh)

I got the limelight
You know I grind tight
Boy get the time right
Step to the rhythm
Rock to the beat hun
You know I gleam son
Everyone's staring,
Staring at us

I got that feeling... Dance...
Ohhh...

Strobes are beaming my body's feening
For you to squeeze me tight
Give me some action
My heart's reacting
You got the rhythm move me right
Shaking my hips your hands on my waistline
Grindin' to the beat don't stop 'til the sunlight
Pulses locking my body's poppin'
Under the lemon light
Under the lemon light

Lemon lemon lemon light woah the lemon light
Lemon lemon lemon light ooh the lemon light
Lemon lemon lemon light woah the lemon light
Lemon lemon light ooh the lemon light
