In a meeting  
On a star  
On a dark star  
On a derelict star

I was the unhappy soul, blew away  
To discuss the plan  
To dance the rain dance  
As it's raining all over the world  
In a dream  
Was a clown  
Going down  
I was the unhappy soul, flew away  
And you were the idiot  
Turning in helicopters  
Listening to every bad joke  
Rising with each cloud of smoke  
And it's burning all over the world  
Burning all over the world...  
In a dream  
Was a clown
