Oh we don't know what's out there  
But still wave to be seen  
Oh so slow, closetting on chaos  
Sketching truths to believe  
But no, no don't you ever hurt us  
We are small, we are sweet  
And you know you can not desert us  
For our lives aren't complete

Peter follow your footsteps  
Pretend to know the answer  
We embrace you and tame you  
So everything is well  
Without there being hell to pay  
No ugly buildings in the way  
And lovely skies are here to stay
