I get rid of you with everything I do I get rid of you
You're my kind of woman Tell me what to do And I
will not pretend to be Extending a hand that holds the
key Unlocking a plan that can consider you And you are
ill prepared to fight Living in a world of soft and white
in air conditioned battle zones I pity you And from here to
you I'm seeing souls in collision Who can they be? With
eyes in all directions But why can't they see? That the
sight of you's starting up a war inside of me The sight of
you's building up a war inside of me You're my kind of
woman I get rid of you
