There's some food upon the table boys  
And if you have ever seen me flying  
Then you know that I am weak  
And you are free to take me downstairs  
Away from cares

I'll be with you in the morning boys  
'Cause you know that if we wait for our time  
We'll all be dead

Oh, now I've bored you cryin' my life away  
Don't I know it, always the things I say  
Always too far

If you could be anything that you wanna be  
Do you think that you would be who you see in the  
mirror  
If I look long enough, my face would start to change  
If I look close enough, I'll take away the pain

Oh, I don't care anymore, anymore  
Anymore, anymore, anymore

I'll be with you in the morning boys  
'Cause you know that if we wait for our time  
Then we'll be there
