My europa
I want you there in my heart
Can see it if you try
If you can

My europa
I had you there from the start
You can feel it in a word
In a world, in my mind

My europa lives in a wink
12 minutes equals a wink
You will arrive in my heart in a wink
We will survive what they may think

My europa, I know where you are
My europa, I know where you are
My europa, I know where you are
My europa, I know where you are
My europa, I know where you are
My europa, I know where you are
My europa, I know where you are
My europa, I know where you are
